CHANGING ROOM & SHOWERING FACILITIES POLICY

These ECB guidelines apply to the arrangements which are to be made for adults, and children using changing facilities at Brymbo Cricket Club for both home and away teams.

- Children and adults **are not** to use the same changing facilities at the same time.
- Adults **must not** change, or shower, at the same time using the same facility as children.
    - If the same changing room is used then they must have different times.
- If adults and children need to share a changing facility, they must do so at different times.
- Mixed gender teams must use the separate male and female changing rooms.
- Due to the risks of inappropriate photography or filming, mobile phones **must not** be used in changing rooms.
- If any junior player is uncomfortable changing or showering at the club, no pressure should be placed on them to do so and we suggest that they change and shower at home.
